Choreography Club

Report of the work done by Choreography club during 2014-15

Choreography club of the college has been involved in conducting practise sessions and coordinating various dance forms for College Arts Festival. Steps were taken to involve interested and talented students and training them under various dance exponents. The students actively participated in this exercise.

The club took initiative to provide financial support for “Keralanadanam” a traditional art form of Kerala and this programme was organised by NSS of this college and Nehru Yuva Kendra. This initiative was well appreciated by the college community.

For the first time, a competition in “Daffumuttu” was introduced in M.G. University Kalotsavam. The choreography club took a special initiative to prepare and send a team of this college for the competition. This exercise was undertaken by the club with the help of an external trainer. The team performed well in the competition.

College team won the III prize for group dance in M.G. University Kalotsavam and would like to bring on record the appreciation for the team.

Choreography club also gave financial support for the performers of solo dance items in M.G. University Kalotsavam as most of these students belonged to financially weaker sections. These students have performed extremely well.

On the whole activities have in a long way delved to unite the artistic talents of this college.
