

The Civil Service Club had a slew of activities this year starting from the Orientation for Civil Service Aspirants among the first year students on 04th October, 2018. This was conducted in co-ordination with Chanakya IAS Academy, New Delhi. This informative session conducted at Dr. A.P. Mani Media Centre had a packed audience of around 111 students from various departments of the college. A scholarship test was also conducted this year to assess the aptitude and attitude of the students regarding Civil Services and more than 50 students participated. This programme was also in co-ordination with Chanakya IAS Academy. Since the college does not have any IAS training, motivation and instructions are provided to the students to participate in training and coaching classes wherever available. The club is planning for informative lectures on specific topics for students in the next academic year.
