FIELD VISIT REPORT

INTRODUCTION

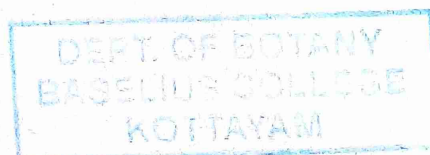

As per the curriculum of Mahatma Gandhi University, it was necessary for B.SC. Botany to conduct field trip as a part of the following courses

Course Title	Course Code
Methodology and Perspectives of Science & Introduction to the World of Plant Diversity	BO1B01U
Environmental Science and Ecotourism	BO5B06U
Angiosperm Morphology, Systematic Botany and Economic Botany	BO6B11U
Biotechnology and Bioinformatics	BO6B12 U
Horticulture and Nursery Management	BO5D01U

Department of Botany, Baselius College planned, and organized such a field visit which helped the student to increase interest in taxonomy. The Final year B.Sc. Botany students of Baselius College participated in this visit. The students and three staff members visited Vagamon on 17/06/2016 .

OBJECTIVES

- Visit to any forests types including grasslands and preparation of the list of Rare and threatened (R&T) plants
- Conduct a field visit to any one of the ecosystems/ botanic gardens to experience the plant diversity.

FIELD REPORT

It was with great enthusiasm we started our field trip to Vagamon on 17th June 2016 as a part of our studies. We 36 students along with our teachers, Prof. Arabhi P, HOD and Dr M V Krishnaraj accompanied us. We started our trip at 7:30am from the college itself. It was a one day trip. We opted the Pala – Teekoy - Vagamon as our route. Our first destination was Kurisumala.

Vagamon is an enchanting hill station located on the Idukki - Kottayam border, dotted with gardens and beautiful meadows. It is 64kms from Pala, situated at an elevation of 1100 metres above sea level. The place is a home to a large variety of flowers and orchids. It is one among the tourist place in Kerala.

By 9:25am we reached Teekoy and had our breakfast. The climate was so cool we have collected a few algal specimens and an angiosperm variety from the nearby waterfall. We continued our journey after the specimen collection.

We reached Kurisumala at 10:25am. The entire hill was covered by mist. We started mountaining the hill by 10:35am. Along with mountaining, we have collected so many plant specimens. It is a place rich in plant diversity. All major types of plant varieties except Gymnosperms has been noticed.

Kurisumala is a renowned Christian pilgrim centre located 3kms from Vazhikkadavu in Kottayam district of Kerala. It is a cisterian Monastery in Syro-Malankara catholic church. It is at the heart of the Sahya Mountains, which run parallel to Indian's Southwest Coast. It is a place blessed with breeze which blows softly across the valleys and by overwhelming beauty of creation. The hill is an abode of silence.

We visited the church at the top of the hill and spend a few hours there. The plant varieties which we have collected include a variety of Mosses, Lichens, Nephrolepis, Selaginella, Hemionitic etc.

We had our lunch there. Afterwards it rained. Our next destination was the pine forest. It is located at Kolahalamedu in Idukki district. Acres of lofty pine trees growing on steep edges lined in rows are the most attractive feature of the place. It is a beautiful spot for photography. It is located 75kms from Perumerdu. We have collected pine leaves, cones, a variety of fungi from there. Unfortunately some of us were attacked by the blood sucking leech.

By 3:30pm we have departed from the pine forest and by 5:10pm we reached Bharanaganam church. It is the burial place of St. Alphonasa. We had our snacks from nearby canteen. After visiting the church, we continued our trip. By 7:30pm we reached in our college we were picked up by our parents. It was a nice trip which was a blend of fun and academic aid. Our teachers gave enough explanations about each plant varieties. We cannot forget this experience ever in our life.
