NAAC 4th CYCLE

**4.2.4: Per day usage of library by
teachers and students
(foot falls and login data for online access)
during the latest completed academic year**

**Method of
Computing of
Library Usage**

Baselius College, Kottayam

Method of Computing Library Usage

Year under consideration - 2020-21

The average Library footfall has been arrived at considering the following details:

1. Average e-access has been calculated for the entire year and the details are based on the data received from NLIST for the period June 2020 to May 2021. Average is calculated by considering all 365 days.
2. Physical footfall has been calculated based on the number of students who entered the Library as recorded in the Gate Register physically maintained. As there was restrictions in the entry of students on the campus, the calculations are based on the actual number of days on which students are permitted to enter the library, strictly following the COVID guidelines. (The summary of Guidelines are attached). As only one batch of students were permitted at a time on the campus, the physical footfall of students will be lower accordingly.

Average Footfall = Average daily Physical footfall for the days on the which Library functioned and actual entry was permitted PLUS Average daily e-access based on NLIST data.
