Academic Calendar –College

The college has a comprehensive academic calendar prepared and approved by the IQAC. It is based on the University Academic Calendar Schedules and is prepared considering the action plan of various departments, clubs and forum. The IQAC consolidates all the proposed plans, discusses and finalizes the schedules. The details are let known to the students through the handbooks,

announcements, tutorial sessions etc. The examination details- proposed date for internal examinations and university examinations- are clearly mentioned in the calendar. The various academic, co-curricular activities are also planned and conducted in accordance with the academic calendar. When changes are announced by the University in the examination schedules, the college makes modification in its own schedule by holding discussions with the Staff Council members, Examination and Internal Assessment Committees and student representatives. The major events like Annual Athletic Meet, Tournaments, Arts Festival, Union Programmes etc are all planned based on this academic calendar. The academic calendar and the soft copy of the Handbook are published in the college website too for reference. The handbook clearly states the commencement of classes, holidays, number of working days in a month and semester etc. Thus, the academic calendar prepared and published helps the students and also staff members to plan their activities in a better manner.

Continuous Internal Evaluation

Internal examination was conducted at the Baselius College under the control of the Principal Dr.Jancy Thomas, Internal Examination co-ordinator Ms. Tessymol Abraham and Internal Examination committee members Ms. Thara Thomas, Ms. Neha P.R. and Ms. Linmer Jaseentha Souz S.

The college is affiliated to the University hence the exam conduct and pattern are as per the norms and the academic calendar prepared by the university. As per the directives of the university, the semester evaluation pattern consists of two parts – ISA (In Semester Assessment) and ESA (End Semester Assessment). The college has a centralized ISA coordinator who along with a team of teachers supervise the process of Continuous Internal Assessment. The entire CIE process is transparent. As the University Guidelines do not provide much flexibility, efforts are made to see that the reforms and innovations are within the regulations. The college conducts at least two internal examinations and teachers are free to hold more class tests. The student is given the benefit of the best two test papers considered. As a part of the assignments, they are given individual or group projects. The seminars include PPT presentations and Group Discussions. Paper presentations are given due consideration. Online assignments are also promoted to encourage the students to remain in touch with the LCT world. While assigning seminars, students are also given the option of presenting on topics of relevance which may not be strictly drawn from the prescribed syllabus alone. Objective type questions, Quiz, MCQs etc. are also considered. The internal examinations conducted by the college strictly follows the University Examination pattern. The students are provided printed booklet in the University Examination pattern. Model examinations are also conducted for practical. Viva Voce is conducted for sixth semester UG and also PG Students. Thus, remaining within the framework provided by the University, the college includes various activities which are covered in the broader headings and conducts the CIE in an efficient and transparent manner.

Mentoring & Tutorial

Mentoring system is constituted with the primary aim of motivating and moulding young minds because the future of the nation lies in the hands of the youth. All the teachers are allotted a specified number of mentees from each class of study, primarily drawn from the departments same department. Language teachers and Physical Education teachers also act as mentors of students of various departments. The mentors interact with the mentees, individually and sometimes collectively and discuss with them various aspects including their academic progress, their personal issues, ambitions and potentials etc. Necessary guidance are given regarding the opportunities relating to employment, higher studies and also the academic opportunities. Mentees are also encouraged in their co-curricular and extra-curricular performances. Details are recorded by the mentors and at the end of the year, a summarized mentee diary is handed over to

the Head of the Department for perusal and discussions. As far as possible, the same mentor is given charge of the mentees for the entire currency of Programme. Each department has its own customised mentoring activities too. Mentors also help the mentees in availing professional counselling, if needed. By directing them to the College Counselling centre. The outcome of the mentoring system as a whole is that it bridges the gap between teachers and students. The mentees shed their inhibitions and approach the mentors not just for problem solving but also to get a supporting shoulder to help them bear the stress and strain of peer pressure. The majority of the students fall under the category of late adolescence period, hence mentoring has augmented the proper channelizing of their inherent talents and latent energy for the benefit of the institution and the society. Students are encouraged to participate in club activities that will build their confidence and interpersonal skills.

LETTER OF APPRECIATION

Dear Dr.Jancy,

On behalf of the Kottayam district administration, I would like to take the time to extend my sincere appreciation and deepest thanks for the goodwill, thoughtfulness, spirit of voluntary community service, and shared sense of citizenship that you demonstrated during Kerala's worst flood in 100 years during June-August 2018.

Kottayam was one of the most affected districts. Even so, thanks in large to your timely support, the Kottayam district administration was able to rise to the occasion and open 711 flood relief camps to provide food, shelter, provisions, and other life support for 58,945 families and 1,99,814 persons displaced by the floods.

The Kottayam district administration feels humbled by your generosity and goodwill in organizing camps, student assistance at the district level for critical activities such as cleaning and sanitation, collection and distribution of relief materials, as well as, 24/7 services at the Collectorate-based District Emergency Operating Centre - including on holidays and even during Onam vacation.

Thank you once again for making our flood relief efforts meaningful. Further, we look ahead to engage with you in future on governance, community development, and other public initiatives for the greater common good.

Arts Club and Arts Festival

‘Arts’ play an important role in moulding the minds of students .In this age of technology and concrete jungles,art is of paramountimportance. The Arts Club at Baselius College helps its student community to develop a positive nature and a creatively inclined student with a positive bent of mind and aesthetic approaches in every work he or she does. The Arts Club provides a place and platform for people who share a connection with the transformative artistic moments of the past, but are also part of defining the Baselian vision for the future. Ensuing forth is the Annual Report, for 2018-19 of the Arts Club, which shall provide a clear and complete picture of the Club’s accomplishments over this past year. The focus during the past year was twofold: a) maintaining the tradition of conducting distinguished contests for which the Arts Club is celebrated, b) Apart from participating in a multitude of events, the students get a firsthand experience of organizing and managing the events, it caters to the creative needs of the students. Under the guidance of teachers -in-charge (Prof. Jinu Mathew, Prof. Shetal Elizabeth Thomas and Dr.Krishnaraj M.V.) and committed and capable Union members, with special mention of the Arts club secretary Vishnu Prasad (D3 Economics), the Arts Club has been able to conduct a handful of good programmes and also bag some notable achievements... The key events conducted under the auspices of Arts club ensued thu:

- Onsm Celebration
- Kerala Piravi celebrations
- ‘Agnithraya’: Arts Festival
- University Arts Festival- Alathalam 2019 at Kottayam

Alumni

Baselius College, Kottayam has an active Alumnae Association named as WE BASELIAN. The Association was established formally on 2002 and got registered under the Travancore-Cochin Literary, Scientific and Charitable Societies Act, 1955 on 19.12.2018 with register no: KTM/TC/493/2018. Since its establishment, the Association has actively involved in various activities directly or indirectly tied with College. The main objectives and activities are highlighted below.

1. Academic activities

Alumni Association arranges a platform for UG and PG students to know various job opportunities in both private and public sectors. The association has instituted scholarships for needy and meritorious students of first years and timely financial supports were arranged for others not coming under the above category. These scholarships are generally distributed during the annual get together on 2nd October. For the regular distribution of scholarships, Association has started accepting fixed deposits. In Collaboration with Malayala Manorama, Association is distributing dailies to MD Seminary Lower Primary School every year.

2. Alumnae meetings

There is an annual get-together arranged by the then executive committee in the college on 2ND October. Besides this, the association also started a get-together of NRI members from various countries, because, they were not in a position to come over during the annual meeting. This NRI meetings are very important to know about possible arenas in the higher education sectors abroad, that will be beneficial to graduate and undergraduate students. We Baselian has two chapters abroad. Departmental alumnae meetings are also conducted as per the request of the batches. The members of the alumnae were always present in the major events in the college.

3. Social responsibility

We Baselian volunteers are always in forefront to fulfil their social commitment. They provided financial support to build houses for homeless during the 2018 and 2019 Kerala flood. They were also actively involved in collecting and distributing relief supplies to the affected areas, especially to Chengannur and Alappuzha during 2018.

- ❖ WE BASELIAN - the Alumnae association of Baselius college acts as a platform for UG and PG students to be aware of the career opportunities at private and public sector
- ❖ Distribution of scholarships for needy students
- ❖ Promotes reading habit among students at Lower and Upper primary levels
- ❖ Conducts regular meetings of alumnae including NRI members
- ❖ Supports National Service Scheme of Baselius College in House constructions and other social activities
- ❖ Financial support to talented students for participating in MG University Youth Festival

PTA Initiatives

Activities and support from the Parent – Teacher Association

- ☞ Construction of furnished Womens room consisting of facilities, amenities and rest room
- ☞ Setting up of incinerator on the campus
- ☞ Scholarships for Meritorious and needy students
- ☞ Arranging Orientation Classes for students
- ☞ Support for Counselling for students
- ☞ Financial Assistance for training for teams selected to represent the college in Cultural Fests and Programmes
- ☞ Financial Assistance for Baselius Trophy Tournaments

Go Green Initiatives

- Installation of incinerators for waste management
- Micro scale experiments in Chemistry labs Chemistry, being an experimental science, testing the theory by doing practical has always been the method of deep understanding of the subject of chemistry. Today, laboratories in academic institutions consume large amounts of chemicals. The ever rising cost of chemicals is adversely affecting many of the practical exercises. The fumes and gases evolved during chemical reactions are threatening the environment. The awareness of eco-friendly experiments is thus

becoming a global phenomenon. It is in this context that a need has arisen which was never so acute here before that the laboratory chemicals are used at a minimal level without affecting the skill and understanding of a student performing the lab sessions. The conventional methods use large scale quantities of chemicals for the experiments. The change brought about in the present scheme makes use of micro scale techniques and two burette titration in the chemistry practicals. This has been done without any conceptual deviation of the principles of experiments in chemistry. Where quantities were used on gram scale, the new method envisages the use in milligram scale. Where volumes of solutions were used in multiples of 10 to 100, the new method prefers only few ml. Scales. This reduces the expenditure on chemicals to a great extent. The apparatus are of smaller size. The scheme saves time and energy of a student while performing the experiments.

- Butterfly garden The Department of Zoology launched a Butterfly garden in the College Campus as a new eco-friendly venture on 12th October, 2018. Saplings of various larval and adult food plants bought from tropical institute of ecological sciences (TIES), Velloor, Kottayam. Close monitoring of the developments in the garden is regularly done by the staff and students of the department. Various stages of life cycle of different butterfly species were observed on specific host plants in the garden. This new endeavor is very beneficial to the students of the department who are interested in biodiversity studies for their curriculum-based project work. It also brings a pleasant ambience in the college campus Sanchi -cloth bags and paper pen were made and distributed in the campus to make the campus eco-friendly.
- Use of LED bulbs in the new building - as a part energy conservation within the campus, power saving LED bulbs has been used for the lightning purposes in the old and new buildings.
- Implementing ban on the use of plastic flex

Best Practices

Practice No 1

Training for School Children Objectives

The institution ensures instilling values and social commitment in the youngsters along with quality education. Innovative practices serve to extend out-of-class learning opportunities to students and to promote the message of social consciousness among them. Various departments of the college instigate several socially committed programmes and activities to empower the students of the college as well as contribute to students outside the college. The college community actively engages in encouraging the students to be a part of value-based learning initiatives and efforts are taken for quality sustenance as well as quality improvement. Context this best practice displays the active student participation in collective learning ensuring that quality of the education imparted by the college is significant in its educational services. The practice of support to schools was thought of in the context of reaching out to schools, especially where there are not many facilities available on account of different reasons. Again, some schools are selected on the basis of relevance of the training methodology. The programme is conducted under the leadership of students of the college so that school children have a relaxed feeling of interacting with their elder brothers and sisters. The Practice Understanding the importance of English language today, the English Department takes various initiatives to promote English language learning among school students.

‘Namaste English’, an extension programme of the Department of English, is conducted every year with the prime agenda of reaching out to school students to make English learning interesting and also to mark the spirit of literature in academia outside the campus. ‘Namaste English’ of the year 2018-19 was designed with the primary motive of “Education in Schools through Theatre”. The first session of the programme was conducted on 11 March 2019 at Amala Public School, Vaikom. A talk on “Theatre and Education” was organized for the students and a theatrical rendition of a syllabus prescribed play was staged. The play was directed by Sri. Jithin John, Assistant Professor, Department of English and the students of the department joined hands to make it a successful performance. Vaikom being a coastal place, the impulsive response and evaluation of the play was a testimony of the play’s success. The play was also staged in St. Philomena’s School and Junior College, Elanji on 5 March, 2019.

Teaching and Learning Mathematics is generally understood as a difficult task among school students. The Department of Mathematics initiates special training programmes for school students to make learning Mathematics in an easy and relaxed manner. The department develops mathematical concepts through games and puzzles which are introduced to schools by the students of the department. For the same, students with social commitment and teaching skills are identified and trained to serve as tutors. Selected students of II- and III-year BSc Mathematics are grouped into two teams and classes are arranged every Wednesday and Friday from 9 am to 9.45 am. In each session a team of six tutors engage the students. Students of V to X standards of Government Model High School, Kottayam are selected for the special training classes. Students of classes V and VI, VII and VIII and IX and X are combined under the monitoring of two tutors per group. The student strength of 36 for the last three years and the collected feedback of the students reflect the success and popularity of the class.

Selected students of B.Sc final year chemistry took classes from 15-1-2019 to 30-1-2019 for the students of high school and higher secondary school of Sree Vidyadhi Raja Vidya Bhavan, Kottayam.

Physics department organized a one-day science exhibition Physibit on 28th January 2019 for the benefit of young students. It was open to students from M.T. Seminary higher secondary school Kottayam, St. Annes higher secondary school Kottayam and other schools. There were about 250 attendees in all. M.Sc students of physics department conducted science demonstration class for the school students.

On 29th June 2018, as part of the non-academic extension programme the student representatives and faculties of Commerce and Management Department, Baselius College, Kottayam, visited the Madonna Jyothis School of mentally challenged in Puthupally at 3.00 P M. There are around 60 inmates at the school. A fund collected from the students and teachers of the department was handed over to the Head of the institution. The students also spent some time with the inmates of the centre, motivating them and engaging them in activities.

In commemoration of Prof.P.C.Alias [the former HOD of Dept of Economics and Principal, Baselius College], the Economics department organized an All Kerala Economics Quiz competition for higher secondary students on 03.11.2018. 42 teams from different parts of Kerala participated in the programme. Moreover, a lecture on the importance and scope of economics as a discipline was also arranged to the Higher Secondary Students as part of the programme.

Evidence of Success Most of the schemes have been operational for years. School authorities often welcome this practice and offer all support to the contingent. The enthusiasm shown by the school children and the feedback collected have been indicators of the success of this programme. Problems encountered and resources required. The main problem faced is the clash in the academic calendars of schools and colleges. The examination schedules of the colleges often change and this affects the continuity of the programme. This has also restricted the activity to a few schools only. The students who undertake this training activity do it on a voluntary basis and without any remuneration on account of the financial constraints.

Practice 2

Red Ribbon Club and Blood Donation Objectives

Red Ribbon club is a voluntary club in the campus with the intervention of blood donation among youth between the age of 18-25. It also aims at the physical and mental health of the youth and conducting awareness programs among the youngsters. Context Baseli College had identified the importance of blood donation and also the need to create awareness on the same among the student community. So as early as in 1990's, a forum was formed on the campus under the title 'Blood Donor's Forum'. The forum in association with the Youth Red Cross took initiatives for donation of blood and arranging Blood Donation camp. This was at the time when Blood donation forums were not popular at colleges. Later when the initiatives of establishment of Blood Donation Clubs were taken by many institutions, the forum was re-named as 'Red Ribbon Club' in line with the common policy. The role of this forum is very important as many people are not aware about the importance of blood donation and many are not willing to donate blood even if they are perfectly healthy. In order to remove the stigma centred around blood donation and to impart proper awareness among students the Red Ribbon Club was started in the college. Practice Our volunteers arrange blood donors needed for the patients in various hospitals who contact our RRC club. The data is then monitored and filed in the register for future references. The blood group details and contact number of the students are also included. Blood donation camps are organized inside the campus so as to benefit the students in avoiding the long journey. Blood donation camps are regularly conducted in the college to create awareness among students on the necessity of saving lives by donating blood. Blood Donation Day is celebrated and awareness programmes are conducted. **Evidence of Success** The evidence of success is clear from the number of calls received by the students for donating blood both at the time of

emergency and otherwise. It can be undoubtedly said that students of Baselius college have helped many patients and the needy by donating blood and undertaking this as a service to the mankind. Problems encountered and resources required Lack of awareness about blood donation is one of the major issues faced. Proper monitoring and data handling is very essential for the activities of this club. One of the major issues faced is that some hospitals do not provide a blood donation receipt of ticket to the students and this limits the evidences of donation. Another issue observed is that the genuineness of some request cannot be verified. The main requirement at present is the need for a portal which manages the data and requirements.

Academic Administrative Audit

ACADEMIC AUDIT

Year under purview: 2018-19

REPORT

Criterion I: Curricular Aspects
<ul style="list-style-type: none"> Many teachers are members of the Board of Studies of the University and are involved in curriculum design Two courses- One Certificate and One Advanced Diploma Course – have been introduced during the year for the benefit of students. Field Projects and Internships are encouraged for certain programmes. More field visits and projects may be undertaken by students.
