## Mentoring & Tutorial

An ongoing process of **mentoring** enables a positive closer interaction between the teacher and the learner.

### **Student Support and Progression**

The college has an active student support mechanism equipped to provide financial, academic and emotional support. Financial help in the form of scholarships and freeships, both from government sources and nongovernment sources has been awarded to students during the period. 51 % of students have benefitted on an average from government **scholarships** and 14 % from institutional

schemes. Alumni, well-wishers, PTA and the college management also provide financial assistance to students. Academic support is maintained through effective mentoring and programmes like WWS and SSP which ensure constant student support. The college has a regular mechanism for **students' counselling** through teacher mentors and certified professional. The institution has various clubs and subject associations which organize skills enhancement and capacity building sessions. **Career Guidance Forum** arranges sessions related to careers, higher education options and training for competitive examinations. The college has a very transparent mechanism for **grievance redressal** and has established all statutory committees like Anti Ragging Cell and Squad, Grievance Redressal Cell, Internal Complaints Committee for Sexual Harassment, Internal Complaints Committee for the disabled, Gender Justice Forum and Equal Opportunity Forum. **Students' progression** is well monitored and the percentage of students progressing to higher education is around 35- 40% on an average for Undergraduate Programmes. Campus placement drives and job fairs are organized. Student Participation in activities is very high and vibrant with diverse clubs and subject associations that offer a platform for skill development and nurturing of talents. Students have been the recipients of several prizes and achievements at the National/ State Level **art, cultural and sports competitions**. Annual Athletic meet and arts fest are held regularly. The college also organizes Baselius Trophy Tournaments every year. Students are actively involved as both organizers and participants.

#### **‘Walk with the Scholar’ Programme**

The College also conducts ‘Walk with the Scholar’ Programme which is intended for the fast learners and the ‘Scholar Support Programme’ which caters to the needs of the slow learners. Special mentoring is provided under these programmes. Again, with the aim of bringing every student a step ahead, remedial classes are also arranged by the teachers. The knowledge base acquired by the fast learner is made use of, by engaging them in peer teaching sessions either for their co-students or students of lower classes.

## Go Green Initiatives

Green campus is a place where environmentally friendly practices and education combine to develop our young students into eco-conscious citizens. The institution has adopted a policy of promoting green initiatives and environment friendly measures and regularly conducts sensitisation programmes. A core course on environment has been included for all degree programmes. Similarly, recent developments have been included in the syllabi of P G programmes too. The college has banned most single-use plastics and is promoting paper cups, cloth bags, cloth banners etc.

### *Department of English*

English department promotes usage of environment friendly materials in the campus. The class teachers encourage students to use cloth carry bags instead of plastic carry bags, paper pens instead of plastic pens and show examples by using the same. Owing to Covid 19, all the assignments and projects this year have been completed online thus reducing the usage of paper to a great extent. Students were also encouraged to plant trees during the lockdown days. The core course paper on Environmental Studies and Human Rights was introduced in the MAHATMA GANDHI UNIVERSITY syllabi for UG BA English Core Courses from 2017 onwards. The core objective of the course has been to create an environment consciousness in the students and also to inculcate in them, the need for environment preservation through the employment of measures and actions that will benefit not just them but also the future generation.

5. Students are instructed to throw trash in waste bins only. Besides they are also instructed not to over use water while using washrooms.
6. Stopped using disposable bottles, replaced paper plates and glasses with reusable ones etc.
