2.PRAKRITHYA

Bhoomitrasena is one of the wings of National Service Scheme of Baselius college. This wing contributes towards spreading awareness among people about the importance and protection of environment. On 28 July 2020, in connection with World Nature Conservation Day, it has started a new intra college programme named 'Pragrithya' which aims at enhancing the knowledge about nature through planting and caring. It is a one month programme in which all students can participate. The registration details of the planters was collected via Google forms. The programme will continue and participants should care their plant and send the details and images of plants they planted every week. After four weeks, the student who cared the plant well will be given the prize on the basis of progress in their plant growth.

Dr. Biju Thomas (Principal, Baselius College), Dr. Viju Kurian (NSS programme officer) and Shahal Niraj of D2 Botany (Bhoomitrasena Secretary) introduced the programme to everyone through a short video (Link: <https://youtu.be/q2xSj0RjmWo>). 83 students registered for the programme. The registration has closed at 29 July at 6pm with 83 participants.

PRAKRITHYA

First week

By the end of first week we collected images of plants which was planted by participants on 28 July 2020, World Nature Conservation Day. And on 5th August 2020, we released a pdf document about the various medicinal qualities of fruit trees, vegetables and herbs. It helps in enhancing the knowledge about the role of plants in improving health and as a natural cure for various diseases.

Second week

By the end of second week we again collected images of plants. On 12 August 2020, the second pdf document was released across Social media which talks about methods of caring plants. It also includes details about various bio fertilizers and bio pesticides. For better harvest, it is important to care and protect plants. So this document helps us to learn about various things essential in plant caring and thereby successful growth of plants.

കള പഠിക്കലും പുതയിടിലും

HASHTAG CHALLENGE

As we know, health workers and law enforcement people are risking their lives for the welfare of the victims of the virus and the general populace. We owe them immense gratitude for their sacrifice on our behalf. On 31st March, a Hashtag Challenge, #care4thosewhocare, was initiated to thank them. Students exhibited their love and care through their talents like poems, messages, photography, artwork, pictures etc. under this hashtag and challenged other students to participate in it. People from outside the college actively participated and the challenge went 'viral'.

Bhoomitrasena, one of the wings of National Service Scheme of Baselius College has observed World Water Day on March 22,2021 in which the volunteers released an online magazine DROPLETS which include various poems, stories, articles and drawings with the theme, importance of water and its protection. The programmes conducted in observance of World Water Day 2021 highlights the theme 'valuing water' helped to create awareness on importance of conserving water and its value.

A Poetic Message

Water can be much more than it seems
 It flows down the mountains, the valleys and streams
 A precious resource that must be preserved
 A wonderful life source we all must cherish
 We are the ones that should be more careful
 We are responsible to watch and support
 We should control the usage of water
 The coming generation also need water
 Be thoughtful about that
 The wastage of single drop of water
 Would affect each family in future
 Wasting water is digging the world's grave
 For the future life have to save water...

By
 Arjun
 D. Senthil

Water is a precious resource that we must cherish and protect. It is the source of life and sustenance for all living beings. We must be mindful of our water usage and ensure that we are not wasting this precious resource. Water is a finite resource and we must use it wisely. We must take steps to conserve water and ensure that it is available for future generations. We must also ensure that our water is clean and safe to drink. We must protect our water sources from pollution and ensure that our water is free from harmful chemicals and pollutants. We must also ensure that our water is distributed equitably and that everyone has access to clean, safe water. Water is a gift from nature and we must cherish it and protect it for the future.

Yoga Day

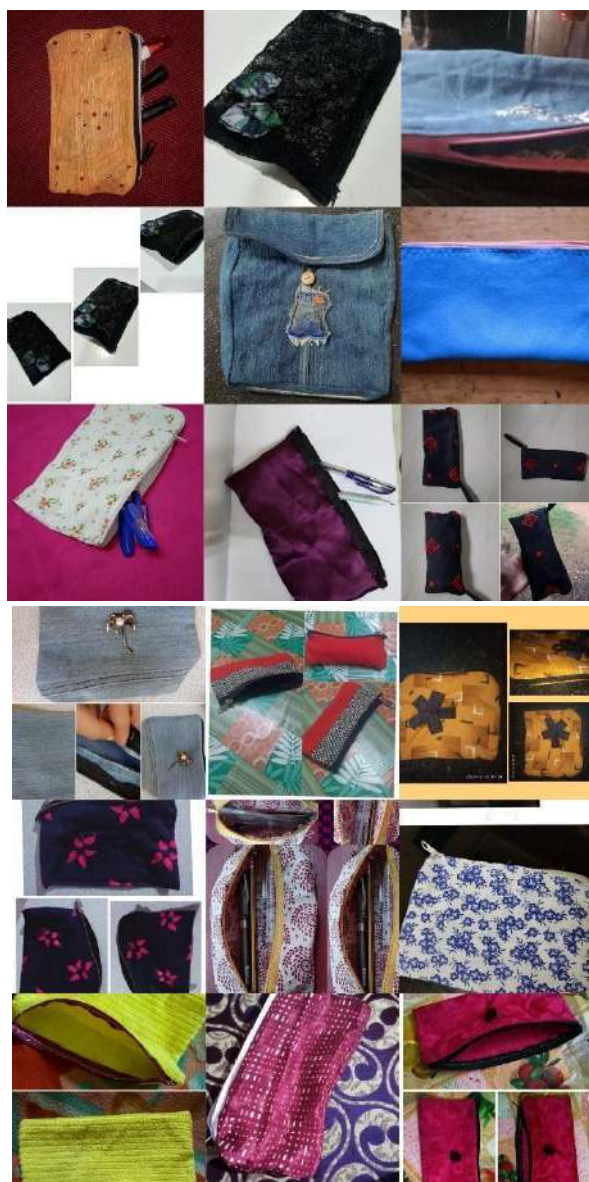

On International day of yoga, an online yoga session was arranged on Google meet based on the theme 'Yoga at home with family'. The program was inaugurated by programme officer Dr. Viju Kurian. An orientation on importance of yoga and its day was given by volunteers. NSS volunteer Nandana Dileep who herself is a yogamaster led the session. Students and teachers participated in the program with their family.

Pouch Making Tutorial

The twelfth programme of Be Positive was a pouch making tutorial. It was done through sharing the pouch making tutorial video uploaded in the YouTube channel of Baselius College National Service Scheme on 12 December 2020. The pouch making video was done by volunteer secretary Devika P Deepak of D2 Chemistry and edited by RCC secretary Akshay Praseed of D2 Political Science. The YouTube link of the video was shared among the first year volunteers and were given a task that is to create such pouches with some their own innovative skills. Within the time limit of a week the first year volunteers made pouches with waste cloth pieces with different designs. This programme helped in encouraging students to make hand-made cloth pouches which can be used for replacing plastic pouches with eco-friendly pouches. The entire programme was coordinated by Be Positive Coordinators Sreerekha Sreekumar of D2 BCom and Sethu Lekshmi S of D2 English with the guidance and support of the programme officers Dr. Viju Kurian and Prof. Ashly Thomas.

TRASH TO TREASURE

In connection with plastic free day, Trash to Treasure, a 7 day programme was started with aim of reducing plastic usage. The idea was simple, to teach general populace about how to make a beautiful craft by utilizing things around them in this lockdown period. 7 products, including cloth pouch,paper pen,paper bag,pen stand,paper basket,door mat and cloth mask. A PDF file was created and shared through every social media platforms. After the ‘How?’ section, a ‘Why?’ section was also included to aware everyone about the plastic's invasion on our planet. The programme had a huge success when other NSS units shared this on their social media pages.

WHY?

WEARING A FACE MASK WILL HELP PREVENT THE SPREAD OF INFECTION AND PREVENT THE INDIVIDUAL FROM CONTRACTING ANY AIRBORNE INFECTIOUS GERMS. WHEN SOMEONE COUGHS, TALKS, SNEEZES THEY COULD RELEASE GERMS INTO THE AIR THAT MAY INFECT OTHERS NEARBY. FACE MASKS ARE PART OF AN INFECTION CONTROL STRATEGY TO ELIMINATE CROSS-CONTAMINATION.

Hiroshima/Nagasaki Day

On August 6th, a 1000 paper plane making mission was started to remember Sadako Sasaki, a victim of the after effects of the Hiroshima disaster. An ancient Japanese legend promises that anyone who folds a thousand origami cranes will be granted a wish by the gods. Some stories

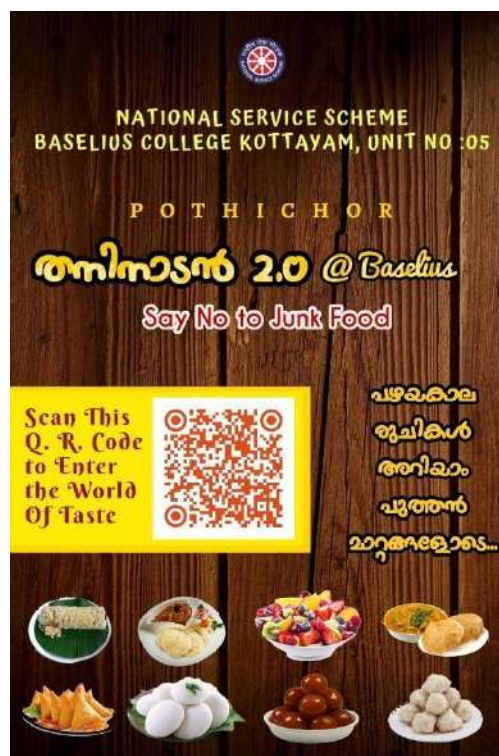

believe you are granted happiness and eternal good luck, instead of just one wish, such as long life or recovery from illness or injury.

A pdf document file was spread across the social media explaining the detailed process of how to make a paper plane, to ensure the Participation of students throughout the college. The mission was completed on 9th August, Nagasaki Day.

Anti – Junk Food Magazine

Food Magazine was one of the successful programme conducted by Pothichor. The magazine consists of almost 31 different types of Non Junk foods. We would like to introduce Non-Junk food items to our students, and that is the main reason we focused on a magazine like this. It was a great success. Students shared this magazine widely, and we got great applause from many students, outside our college. Through this initiative, we were able to know more about a variety of new food items, of different region. Last year we had conducted a Food Fest but this year, as we are facing such a huge pandemic issue, we released this Food Fest magazine instead of Food Fest. I take this as an oppourtunity to thank everyone who helped us, especially our P.O Dr Viju Kurian, Prof. Ashly Thomas and other co-ordinators, to release such a worthy magazine.

International mother tongue day

Mother tongue develops a child's personal, social and cultural identity. Using mother tongue helps a child develop their critical thinking and literacy skills. On international mother tongue day , volunteers modified 'samaramaram' to mother tongue tree, by hanging decorations based on our mother tongue, Malayalam. Popular poems, posters, images of the great poets in Malayalam language etc where the main attractions. This created a public awareness throughout the College about the importance of the day.

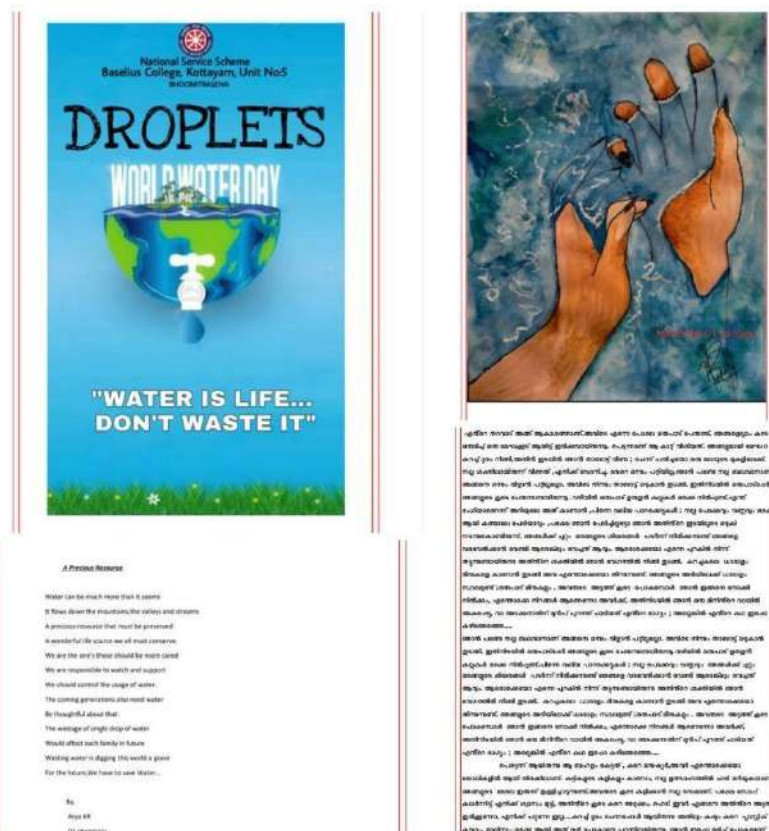

Pazhamayilek orethinottam

The fourteenth of Be Positive titled 'Pazhamayilek orethinottam' which was on 30th January 2021. It was done through sharing a video uploaded in the YouTube channel of Baselius College National Service Scheme that demonstrates the procedures of making some toys using coconut leaf. The demonstration was done by Yeduraj of D2 Botany, one of our NSS volunteer. Through this programme we aimed to help students to have a nostalgic feelings of their childhood and for those who haven't tried these crafts earlier this will provide them an opportunity to try these crafts using coconut leaf. Nowadays most people are spending their time with mobile phones and gadgets, people have been prone to mental disorders due to this continuous use. We found that this programme will help them find joy without gadgets and we executed this idea with some ageold crafts which are refreshing and enjoyable. The technical side was done by Chaitanya Sreenivas of D2 Chemistry and Akshay Praseed of D2 Political Science. The entire programme was coordinated by Be Positive Coordinators Sreerekha Sreekumar of D2 BCom and Sethu Lekshmi S of D2 English with the guidance and support of the programme officers Dr. Viju Kurian and Prof. Ashly Thomas.
