Five radio buttons for rating the curriculum delivery statement.

There is value-based learning in the curriculum

Five radio buttons for rating the value-based learning statement.

Give your opinion/suggestion on the shortcomings of the present syllabus and scope for improvement in contents.

Syllabus is good but needs improvement, The exam pattern will help the students for rote learning only. Computer based exams and practical or application oriented questions need to be encouraged than memory based.

The bulky syllabus need to be revised and ample time should be given for the teachers and the students to impart the syllabus.

Learning from outside the syllabus is equally important and this is possible through industry exposure. The scope is limited or name sake as per the present syllabus due to the time constraints.

Instead of making modules bulky make it friendly and interesting by including new concepts and theories. Eliminate the least important ones.

If merging of subjects is possible that also need to be considered in the first year. An outcome based practical exam should be given to final year undergraduate students instead of regular assignments and seminar.

visits, projects and assignments, Industrial visits or study tours etc.

The curriculum delivery is as per plans prepared and is let known to students in advance

There is value-based learning in the curriculum

Give your opinion/suggestion on the shortcomings of the present syllabus and scope for improvement in contents.

While revising the Syllabi, more emphasis should be given for updating the content of various courses. It would be much if it is in continuation with what students have learned during their plus two periods. One or two months of internships are needed for well execution of Project work.
