‘Snehaveedu’ was a dream project undertaken by the NSS unit of Baselius College. The idea was first initiated in the brainstorming session of ‘Be Positive’, an important wing of NSS, Baselius College. The idea took shape into an ambitious yet realistic project as the unit members delightedly joined hands to make it successful and sincerely wanted to extend their help to a needy family in the society. Though there were a lot of apprehensions regarding the implementation of such an expensive project, college management and the students extended their complete support, the unit confidently moved forward with the arduous task. Volunteers took a sincere effort for raising the required fund and students, teachers and other staff members sincerely contributed and cooperated in fulfilling the dream. The first stage of the house construction started on 28 March 2017, on the one and half cent land at Vadavathoor, Chembola road. During each stage of its construction, the cooperation from teaching, and non-teaching faculty and alumni was commendable. NSS programme officers and all the volunteers worked very hard on holidays to complete the project. The students needed to carry the construction materials such as bricks, cement, metal, septic tank, plumbing materials and other building materials from the road to the construction site which is situated

at a reasonable distance from the main road. As a result of strenuous effort our project was accomplished. 100 students participated in the program. . It was conducted on 28/03/2017.

MLA Thiruvanchoor Radhakrishnan handed over the key of the house to the family on the auspicious day of “Uthradam”. For the unit, it was a dream come true, a day of complete gratification and fulfilment.
