Field Visit : (Academic year 2022-2023)

BBA Batch 2020 - 2023

Subject: Field Visit at Milma Dairy Unit, Thrissur.

Coordinator:Dr. Manoj Narayanan K S & Ms. Shiny Abraham.

Introduction

The Department of Management, Baselius College ,Kottayam had organized an industrial visit . As a part of 4thsemester IV, 18 students of the BBA 2nd year long with coordinators Dr Manoj NarayananKS (HOD) and oru class teacher Miss Shiny Abraham visited MilmaThrissur Dairy at Ramavarmapuram, Thrissur. Milma Thrissur Dairy had won the district energy conservation award in the category of medium scale industries from Energy Conservation Society for the year 2022.It has a milk handling capacity of 100000 litre/day.

About Industrial Visit

The industrial visit was held on 4th June 2022. At around 10:30 am visit was start. For visit 18 students are available. We got an instructor, and we saw whole unit in 1hr. Instructor explains every process which held in the unit.

At around 11:30 pm visit was over.

Findings

- It has a milk handling capacity of 100000 litre/day.
- Only Milk, Curd, Gee and Sambharam were the products produced by the Milma Dairy Unit, Thrissur.
- 86000 litres of milk are being collected and brought to the unit, from other places.
- There were various categories of milk produced in the unit such as Homogenized Toned Milk, Milma Rich Milk, Milma Smart Milk, Milma Lite, etc.
- Six tankers of milk arrive to the unit at different time schedules, daily.

DEPARTMENT OF COMMERCE AND BUSINESS ADMINISTRATION

STUDY TOUR SUMMARY

Place – Goa

30-01-2023 to 04-02-2023

Classes – D3 Commerce, D3 BBA and M2 Commerce

The Department of Commerce and Business Administration at Baselius College, Kottayam organized a study tour to Goa for the students of D3 Commerce, D3 BBA, and M2 Commerce. The tour took place from 30th January 2023 to 3rd February 2023. The objective of the tour was to provide students with exposure to the industry and cultural aspects of Goa.

DAY 1 DATE -30-01-2023

The tour began on 31-01-2023 from Baselius College Kottayam around 9:45am under the guidance of Prof. Dr. Manoj Narayanan K. S. to Ernakulam by a private bus (Ave Mariya). A total of two buses were allotted for the journey. The group reached Ernakulam South Railway Station by 12:15pm. The train to Goa – Mangaldweep Express -12677 departed at 1:30pm. After spending around 13 hours in the train, the tour party reached the destination on Day two.

DAY 2 -31-01-2023

The train reached Madgoan Station at early morning 4:25 am. The travel agent Ajo led the group/ crew from Madgoan Station and dropped the crew at Palm Resort and checked in by 5:15am. After a fresh up the students were ready for their breakfast. The menu for the breakfast was puri with vegetable curry and bread and jam along with chai. After the breakfast all the students were taken to the NIT GOA for the industrial visit. The institutional visit was held on 31-01-2023. At around 10:30 am the visit was start. The session was organised by Department of Humanities and Social Science of NIT, Goa. The session was start by Dr. Sunil Kumar, Assistant Professor of Economics, Humanities and Social Science. Five PhD Scholars also interacted with the students. There was topic presentation and discussions.

Dr Sunil stressed the basic research procedure and presented an overview of NIT Goa. Ms Melba J Fernandez, the Research Scholar presented her topic Innovation Economics. She also highlighted the requirements of academicians in the corporate sector based on her experience. She motivated the students to take up research. The senior scholar Mr Baiju P discussed Technology, productivity and technology transfer. The ICCR funded international scholar from Cyria, Mr Ali Alshik Hazan threw light on disaster management and health care system. Mr Sudharshan Vinayak Thakur's area was Labour economics. The scholars who joined recently also were part of the presentations.

The students of Baselius college also joined the discussion based on their project topics and cleared doubts. Shamsiya, Anoop and Sivapriya of M Com, Bijin of B com and Aravind K r of BBA were part of the discussions. The accompanying teachers also interacted with the Faculty of Department of Humanities and Social Science of NIT, Goa. A group picture was taken with the staff and scholars of NIT. After the session there was a Campus tour in NIT, Goa. At around 12:00 noon, the visit was over.

After the industrial visit, it was lunch time (Biryani) at Old Goa Residency. Later, the crew visited St Francis Cathedral Church between 2.20-3.00 pm. From 3.15-3.30 pm the visit was at Bom Jesus Basilica and after that from 3.50-4.15pm , St Augustin Tower. After the visit, the crew came back to the Palm Resort for fresh up. After the fresh up, the crew moved to Calangute Beach to explore beach life, the beach life was from 6.30-10.00 pm. The return to the resort was at 10.45pm and the menu for supper was Chappathi, Parotta.

DAY 3 -01-02-2023

After breakfast at the resort (the menu being puri with vegetable curry and bread and jam along with chai) , the group visited Aguada Fort and Aquada Lower. The lunch at Hotel Razaand the menu was (goan thali), Then it was time for pool activities at Palm Resort. After the pool activity in the evening the group visited Baga Beach and enjoyed a beach walk and shopping until 10.30

pm. After the beach walk and shopping the group ate dinner at the Palm Resort, the menu was (chappathi, ghee rice and chicken curry).

DAY 4 - 02-02-2023

In early morning the group was divided into 2 teams. The first team went to Grand Island in Maharashtra by 6.30 am for experience the water sports activity. Afternoon they had their lauch from the nearest hotel allocated by the agent. The menu was Goan thali. Later, by 4.00pm the first group returned to the Palm resort.

Meanwhile the second team had breakfast at the resort (Kerala style breakfast including Puttu, Kadala, Uppumavu , Noodles, Bread and tea) and then visited Vagator Beach and Anjuna Rock Beach and explored the beach till afternoon. The group returned to the resort for lunch and had pool activities until Team one joined them. Later the evening the group visited Calangute Beach for shopping until 10.pm. After the beach walk and shopping, the group returned to the Palm Resort and had their dinner. The menu for dinner was chapati, ghee rice and chicken curry.

DAY 5 -03-02-2023

On the final day, the group checked out of the resort at 6.45 am and reached the station by 8.45 am. They boarded the Veraval Express – 16333 from Madgaon at 9.25 am and started the journey back to Kottayam Railway Station. The breakfast was arranged from Madgaon station. The menu for breakfast was idly and sambar. The launch was also provided from the pantry, the menu for lunch was chicken biriyani and meals. The students spent their time chatting and involving in minor games like card games. Tea and later supper were arranged from the pantry itself. Later the train reached Kottayam Railway Station by 12.10 am on 5th February 2023.

CONCLUSION:

The study tour to Goa provided students with an opportunity to explore the culture and industry of Goa. The interaction with Dr. Sunil Kumar and his team at NIT Goa was informative, and the visits to various beaches, forts, and churches provided an insight into the history and architecture of Goa. The students were able to enjoy the entire trip with absolute joy and they were back with a lot of memories for a life time. The tour was well-organized and provided a valuable learning experience for the students.

FIELD VISIT REPORT

INTRODUCTION

As per the curriculum of Mahatma Gandhi University, it was necessary for final year degree students to visit to a local area to document environmental grassland/ hill /mountain as a part of the course ENVIRONMENT MANAGEMENT AND HUMAN RIGHTS (CO5CRT15). Department of Commerce (Self Financing), Baselius College planned, and organized such a field visit which helped the student to increase interest in environmental issues. The Visit was organized with prior permission and guidance of Dr. Biju Thomas, Principal (Baselius College) and Dr. Joy Markose, HOD. The Final year B.Com. students of Baselius College participated in this visit. The 44 students and three staff members visited Kumarakom, one of the beautiful ecosystems of Kerala on 21st October 2022.

OBJECTIVES

- Environmental Education encourages students to research, investigate how and why things happen, and make their own decisions about complex environmental issues by developing and enhancing critical and creative thinking skills.
- Environmental Education helps students to understand how their decisions and actions affect the environment, builds knowledge and skills necessary to address complex environmental issues, as well as ways we can take action to keep our environment healthy and sustainable for the future. It encourages character building, and develop positive attitudes and values.
- To develop the sense of awareness among the students about the environment and its various problems and to help the students in realizing the inter-relationship between man and environment and helps to protect the nature and natural resources.
- To help the students in acquiring the basic knowledge about environment and the social norms that provide unity with environmental characteristics and create positive attitude about the environment.

Our team visited Kumarakom, one of the beautiful ecosystems of Kerala. We spent time there with officials of Kumarakom, Panchayat. They explained various cultivation methods adopted by Kumarakom Paddy for improved sustainability of income generation. Though a large variety of vegetables are cultivated in the village, paddy fields cover almost half of the

total area. Rice cultivation here is laborious including many steps such as draining the fields and creating bunds. The village, like any other in Kuttanad, lies below sea-level and two crops are planted in a year – Viruppu (Kharif) cultivated between May and September and Punja (Rabi), cultivated between November and March. In Kumarakom, the rice is cultivated in blocks called padasekharams (polders). There are about 58 farmers' groups (padasekharasamithies) in Kuttanad. These samithies ensure joint sowing, dewatering, polder preparation and irrigation activities. Rice cultivation in Kumarakom, though economically viable, is not easy. There is a cycle of activities that begins with the removal of aquatic weeds from the rice fields. Another essential initial preparation is the construction or repair of outer bunds for the fields. As farming is done below the sea level, such bunds are necessary for dewatering.

Mixed crop cultivation is a thriving agricultural system in Kumarakom. In this type of cultivation, a variety of crops are cultivated and livestock farming is also carried out. This integration reduces risks. Moreover, the output from one sector can be used in others. This kind of farming has resulted in increased production and improved sustainability of income generation.

OUTCOMES OF FIELD VISIT

- Helped students in acquiring the basic knowledge about environment and the social norms that provide unity with environmental characteristics and create positive attitude about the environment.

DEPARTMENT OF MALAYALAM

As part of the curriculum focusing on "Paristhithi Vinjaanavum Manushyaavakaasa Padanavum" (Environmental Science and Human Culture), 29 students from the Malayalam Department at Baselius College undertook a field visit to Munnar, Palani, and Kodaikanal. The primary objective was to provide students with a holistic understanding of the intricate relationship between environmental factors and cultural practices.

In Munnar, students immersed themselves in the lush greenery and biodiversity of the Western Ghats. Visits to tea plantations and interaction with local experts highlighted the delicate balance between human activities and the rich natural ecosystems. Discussions revolved around sustainable agricultural practices and conservation efforts in the region.

The journey to Palani showcased the significance of cultural heritage intertwined with religious practices. Students visited the renowned Palani Murugan Temple, exploring the historical and cultural aspects of the region. Interactions with scholars and temple authorities provided insights into the cultural dimensions of human life and its harmonious coexistence with nature.

Kodaikanal, nestled in the Western Ghats, offered a unique perspective on environmental conservation. Students engaged in discussions with local environmentalists and participated in activities related to waste management and afforestation projects. The visit emphasized the role of community initiatives in preserving the natural beauty of the hill station. The diverse landscapes of Munnar, Palani, and Kodaikanal served as living classrooms, reinforcing the interconnectedness of environmental science and human culture. Interactions with local communities provided a nuanced understanding of how cultural practices are deeply rooted in the environment. The field visit sparked reflections on the responsibility of individuals and communities in safeguarding both cultural heritage and ecological balance.

FIELD VISIT REPORT

INTRODUCTION

As per the curriculum of Mahatma Gandhi University, it was necessary for final year degree students to visit to a local area to document environmental situation of rivers/land areas of Goa as a part of the course ENVIRONMENTAL POLITICS AND HUMAN RIGHTS (PS5CRT08). Department of Political Science, Baselius College planned, and organized such a field visit which helped the student to increase interest in environmental issues. The Visit was organized with prior permission and guidance of Dr. Biju Thomas, Principal (Baselius College) and Dr. Shibu M George, HOD. The Final year BA Political Science students of Baselius College participated in this visit. The 32 students and two staff members visited Goa, one of the beautiful ecosystems of India on 3th March 2023.

OBJECTIVES

- Environmental Education encourages students to research, investigate how and why things happen, and make their own decisions about complex environmental issues by developing and enhancing critical and creative thinking skills.
- Environmental Education helps students to understand how their decisions and actions affect the environment, builds knowledge and skills necessary to address complex environmental issues, as well as ways we can take action to keep our environment healthy and sustainable for the future. It encourages character building, and develop positive attitudes and values.
- To develop the sense of awareness among the students about the environment and its various problems and to help the students in realizing the inter-relationship between man and environment and helps to protect the nature and natural resources.
- To help the students in acquiring the basic knowledge about environment and the social norms those provide unity with environmental characteristics and create positive attitude about the environment.

Our team visited Goan region, one of the beautiful ecosystems of India. We spent time in Fort Aguda a well preserved seventeenth century Portuguese fort. Panaji is the most polluted area in Goa, students and teachers analysed the major causes of pollution in this area. Mandovi and Sal rivers in Goa are facing most pollution. Coal particles are contaminating the Mandovi river and this is the big challenge to the ecosystem of the Old Goa. Teachers and students evaluated the current polluted situation of the area and studied the major causes and effects of the pollution.

OUTCOMES OF FIELD VISIT

- Students got a special chance for experimental education through this field visit.
- This field trip enhanced student's critical thinking power related to the environmental degradation and acquired more empathetic and tolerant towards the environment.
- Helped students in acquiring the basic knowledge about environment and the social norms that provide unity with environmental characteristics and create positive attitude about the environment.

Field Visit Report: Algae Collection Expedition to Thirumullavaram Beach

Date: October 29, 2022

Location: Thirumullavaram Beach, Kollam

Participants: 22 students and 2 teachers from the Botany Department, Baselius College, Kottayam

Objective

- The field visit was organized as part of the curriculum for the courses Phycology, Bryology, Methodology of Science, and Introduction to Botany. The primary objective was to provide students with practical exposure to the collection and study of algae, focusing on the diverse marine flora found in the coastal region of Thirumullavaram.

On October 29, 2022, 22 students from the Botany Department at Baselius College, Kottayam, embarked on a field visit as part of their curriculum encompassing Phycology, Bryology, Methodology of Science, and Introduction to Botany. The destination was Thirumullavaram, a serene coastal locale situated 6 km north of Kollam city in the state of Kerala, South India. Renowned for its tranquil beach, known for its safety for swimming, the students engaged in hands-on algae collection activities. Guided by faculty members, the expedition aimed to deepen their understanding of marine flora. The students explored the diverse coastal ecosystem, documenting various algae species and their ecological significance. This practical experience not only enriched their knowledge but also fostered a deeper appreciation for the intricate ecosystems studied in their botanical courses. The day concluded with insightful discussions and reflections on the significance of their findings, marking the field visit as a valuable and memorable educational experience.

Field Visit Report

Date: March 01, 2023

Location: Goa

Participants: 29 students and 2 teachers from the Botany Department, Baselius College, Kottayam

Objective

- Integration of Theoretical Knowledge and Practical Application
- Experiential Learning and Biodiversity Documentation

On March 1, 2023, 29 final-year degree students from the Botany Department at Baselius College, Kottayam, embarked on an educational field visit to Goa. The primary objectives of the excursion were to enrich their understanding of Angiosperm taxonomy, Morphology & Economic Botany, Genetics, Plant Breeding, and Horticulture in a real-world context. Goa, with its diverse flora and unique ecosystems, provided an ideal setting for students to observe and study a wide variety of plant species. The students actively engaged in hands-on activities, including plant identification, study of floral structures, examination of economic plant products, and exploration of horticultural practices. The immersive experience aimed to bridge theoretical knowledge with practical application, enhancing their skills and preparing them for a comprehensive understanding of plant sciences.

The day-long expedition facilitated a comprehensive exploration of Goa's botanical landscape, offering students insights into the region's biodiversity and the application of genetic principles in horticulture. The field visit not only deepened their knowledge of the subjects but also fostered a sense of appreciation for the practical aspects of their botanical studies. Through collaborative learning and guided observations, the students gained valuable insights that will undoubtedly contribute to their academic and professional growth, aligning with the holistic education goals of the Botany department at Baselius College.

FIELD VISIT REPORT

INTRODUCTION

As per the curriculum of Mahatma Gandhi University, it was necessary for final year degree students to visit to a local area to document environmental grassland/ hill /mountain as a part of the course HUMAN RIGHTS AND MATHEMATICS FOR ENVIORNMENTAL STUDIES (MM5CRT05). Department of Mathematics, Baselius College planned, and organized such a field visit which helped the student to increase interest in environmental issues. The Visit was organized with prior permission and guidance of Dr. Biju Thomas, Principal (Baselius College) and Dr. Annie Cherian, HOD. The Final year B.Com. students of Baselius College participated in this visit. The 31 students and three staff members visited Kumarakom, one of the beautiful ecosystems of Kerala on 20th October 2022.

OBJECTIVES

- Environmental Education encourages students to research, investigate how and why things happen, and make their own decisions about complex environmental issues by developing and enhancing critical and creative thinking skills.
- Environmental Education helps students to understand how their decisions and actions affect the environment, builds knowledge and skills necessary to address complex environmental issues, as well as ways we can take action to keep our environment healthy and sustainable for the future. It encourages character building, and develop positive attitudes and values.

- To develop the sense of awareness among the students about the environment and its various problems and to help the students in realizing the inter-relationship between man and environment and helps to protect the nature and natural resources.
- To help the students in acquiring the basic knowledge about environment and the social norms that provide unity with environmental characteristics and create positive attitude about the environment.

Our team visited Kumarakom, one of the beautiful ecosystems of Kerala. We spent time there with officials of Kumarakom, Panchayat. They explained various cultivation methods adopted by Kumarakom Paddy for improved sustainability of income generation. Though a large variety of vegetables are cultivated in the village, paddy fields cover almost half of the total area. Rice cultivation here is laborious including many steps such as draining the fields and creating bunds. The village, like any other in Kuttanad, lies below sea-level and two crops are planted in a year – Viruppu (Kharif) cultivated between May and September and Punja (Rabi), cultivated between November and March. In Kumarakom, the rice is cultivated in blocks called padasekharams (polders). There are about 58 farmers' groups (padasekhara samithies) in Kuttanad. These samithies ensure joint sowing, dewatering, polder preparation and irrigation activities. Rice cultivation in Kumarakom, though economically viable, is not easy. There is a cycle of activities that begins with the removal of aquatic weeds from the rice fields. Another essential initial preparation is the construction or repair of outer bunds for the fields. As farming is done below the sea level, such bunds are necessary for dewatering.

Mixed crop cultivation is a thriving agricultural system in Kumarakom. In this type of cultivation, a variety of crops are cultivated and livestock farming is also carried out. This integration reduces risks. Moreover, the output from one sector can be used in others. This kind of farming has resulted in increased production and improved sustainability of income generation.

OUTCOMES OF FIELD VISIT

- Helped students in acquiring the basic knowledge about environment and the social norms that provide unity with environmental characteristics and create positive attitude about the environment.

We, the students of B.Sc Zoology, started our field visit on 27/02/2023 and ended on 30/02/2023.

On the 1st day (27/02/2023) our journey started from Baselius College, Kottayam at 5.45 am. A total of 34 students, 2 teachers: Sany Miss & Anif Sir, Non-teaching staff Sujith (lab assistant) participated in this trip. We had our breakfast at 7:30 am from Ariyas at Korahulam. We reached our first destiny "KUFOS" at 9.45 am. The Kerala University of fisheries & oceanic studies is a university established by the Gov. of Kerala devoted to the studies in fisheries & oceanic science. Dr. Manjusha Madam (Professor in Microbiology) welcomed us to the campus. There we visited food science lab, food processing lab, Marine biology lab, Biotechnology lab, Centre for bioactive substances from marine organism & microbiology lab. Spectrophotometer, Soxhlet Extractor, Roaster Evaporator, Ice place Machine, Battering Machine, Autoclave, centrifuge & also slides of microzooplanktons & copepods are seen in the lab respectively. We also visited Dr. A.M. Michel public aquarium, also a part of KUFOS. Different types of aquatic organisms are found such as Alligator gar, Redline Torpedo Barbs etc. It was really a beautiful experience. Around 1:30 pm we had our lunch

from Iftar restaurant. We reached
Maxine Drive at 3:30 pm and travelled
to sea in "Boat Cruiser". We had a lot of
fun inside the boat like dj and we
danced a lot. The visual during the
time of travel was really beautiful. After
that we roamed around Maxine
drive & left from Enakulang at 7pm.
We had our dinner at 8pm from Ansar
restaurant.

On the 2nd day (28/7/2023) we
reached Coorg at morning 5am. We get
freshen up from Suloka hotel and had our
breakfast from Grand Armaan at 8am. We
reached Sun temple at 11am. It's a calm &
beautiful place and we all enjoyed a lot.
The view and areas around Sun temple gives a
different vibe. After that we reached
Dubara water falls for river rafting. It
was such an amazing experience & the
weather was really cold & beautiful. Rafting
was really a different experience in my life &
I enjoyed a lot. After having lunch we
reached Nisargadhama - Bamboo forest at 5pm.
We all played a lot & also spend times in
bamboo houses. We had some shopping also.
Then at night we gathered for Campfire &
enjoyed a lot. After that 1 of our classmate
played guitar and we all sang along with the
rhythm.

We had our dinner at Grand Armaan
& reached Suloka hotel at 11 pm. We stayed
that night at Coorg. The climate at Coorg
is cold but it provides a different feel

On 3rd day (29/02/2023), we started our journey from Bangalore to Chickmagalur at 6am. We had our breakfast from HSM Hotel at 8:15am & reached Chickmagalur at 11am. From there we split into small groups and entered different jeeps as per groups for trekking. Our team includes 13 students with Anit Sir. A total of 14 members.

The view along the travel was just amazing and mind blowing. When we reached Chickmagalur, we feel a bit hot. But as height of the travel increases the intensity of the cold also increases. Wherever the jeep stops, we just walk & visit different spots & take pictures. The view from hill top was extremely something more than explanation. We visited Mullagangiri peak, ~~view point~~, Z point, Jersey water falls, 360 degree view point & Baba budhangiri view point. Also visited an old cave temple made of stones. We had our lunch from hill top during the trekking. During the whole journey (trekking) we sang & played a lot. It was really a most memorable moment. At last, having a hot tea

from chickmangalore, we start our journey back to college at 7pm. On our way during 10pm, we had our dinner at Coog & started to college.

On our 4th day (30/02/2023) we had our breakfast from Kochi & reached Kottayam at 1pm. It was one of the most beautiful experience in my life. We danced a lot, sing a lot, smiled a lot & cried a lot. We shared our most beautiful moments together.

Internship Report: Data Science Internship at Wahy Lab Solutions

The M2 Data Analytics students embarked on a rewarding **two-month internship program** at **Wahy Lab Solutions**, a website development company situated in Kochi, Kerala from **1st December 2022 to 31st January 2023**. The internship aimed to provide a practical learning experience in data science, focusing on foundational Python knowledge and training in various machine learning and deep learning algorithms. All the 12 students of M2 Data Analytics Completed the internship successfully.

During the internship, the interns were exposed to a comprehensive curriculum that encompassed essential aspects of data science. They received a strong grounding in Python programming, acquiring proficiency in key concepts, data structures, and libraries commonly used in data analysis and modeling. This foundational knowledge formed the basis for their subsequent exploration of machine learning algorithms.

The interns were introduced to a range of machine learning algorithms, including regression, decision tree, and random forest. Additionally, the interns were exposed to deep learning algorithms, such as Artificial Neural Networks (ANN), Convolutional Neural Networks (CNN), and Recurrent Neural Networks (RNN), gaining valuable knowledge about their architecture and training processes. Furthermore, the internship provided the students with a valuable opportunity to engage in Exploratory Data Analysis (EDA) and model building.

In conclusion, the data science internship at Wahy Lab Solutions offered the M2 Data Analytics students an immersive and enriching experience. Through hands-on training in Python programming, machine learning algorithms, deep learning techniques, and practical applications in EDA and model building, the interns acquired valuable skills that will contribute to their future careers in the field of data analytics.

Industrial Visit Report

As part of the Syllabus of M.Sc. Data Analytics (ST050401), a one day Industrial Visit is given to M2 Data Analytics students (2022-24 Batch) at **Wahy Lab Solutions**, a website development company situated in Kochi, Kerala from **26th November 2022**. All 12 students along with 3 faculty members visited **Wahy Labs**.

Wahy Lab Solutions is one of the top website development company in Ernakulam which is strategically located in Kochi, India; from there we cater our services across the globe. We work with our clients to build stronger value-added relationships with their customer by helping them increase the profitability of their business. Our organization is renowned for a foundation of quality and customer satisfaction. Our success is entirely the success of our clients. We supplies and supports a broad range of IT application solutions and services including: IOT Healthcare, Industrial Automation, ERP-CRM Applications, Mobile Apps development, Website and application Development, Online promotions-SEO services and Customized Software solution.

At the **Wahy Labs** Internship training center, students got the opportunity to see and explore all the areas and courses offered there. The HR Manager, Ms. Anitha explained to them about all the sectors, labs and courses in the training center.
