## **INDUSTRIAL VISIT REPORT**

**Industrial Visit to Hi-care gloves Pvt.Ltd, Marangattupilly, Kerala**

**A Report on Industrial Visit organized by the Department of Business Administration for the students of BBA [ 3<sup>rd</sup> SEMESTER ] 2023 – 25.**

**ESTD 1964**

**DEPARTMENT OF BUSINESS ADMINISTRATION**

## **REPORT ON INDUSTRIAL VISIT**

An Industrial Visit to “Hi-care gloves Pvt.Ltd “, Marangattupilly was organized by the Department of Business Administration on 8<sup>th</sup> January 2024 , Monday. Twenty three BBA students and 2 faculties [Nidhin John, Dr Mishel Elizabeth Jacob (HOD)] visited to Hi-care gloves pvt.ltd. to understand how the production activity, management process, technology works and also to acquire knowledge and experience.

The journey began from the college campus by 9:30 AM and reached the venue at 10:30 AM.

Our visit provided valuable insights into the manufacturing processes and practices of one of the leading glove manufacturers in the industry. The company located at Marangattupilly, Kottayam(dist), specialises in the production of high-quality gloves for various sectors. The business came into existence in 2011 and is one of the leading company having an extensive experience in the field of manufacturing medical disposable gloves with an excellent reputation for quality and customer service.

During the visit, we observed the comprehensive glove manufacturing process, from raw material handling to final product packaging. Thomas George Sir, the manager of the company made us understood about all the process that takes place in their company. He guided us to different sections of company including manufacturing, packing and labelling of gloves. The glove making process includes a ceramic hand-shaped mould called a former which is conveyed through a dipping series at 60°C. First the formers are put through an acid and alkali wash followed by rinsing to remove dirt and residues. Then, they go through dipping, in which the first coat of a coagulant solution is applied. This solution typically consists of calcium nitrate and calcium carbonate. Calcium nitrate determines the thickness of the latex coating and final glove, while calcium carbonate or stearate serves as a releasing agent to detach the gloves from the formers during the glove-stripping stage. Freshly moulded gloves are then leached in hot water to remove residual latex proteins and chemicals.

Gloves are then dried and cured, at which point a vulcanization reaction occurs between the rubber molecules in the latex and added chemicals that make gloves stronger and more elastic. Gloves are treated with either chlorine or a polymer coating to control surface grip characteristics. After drying, gloves are rinsed again to leach out additional latex proteins, and cuffs are beaded or rolled to make them easier to wear. Then finished gloves are stripped from the formers and sent them to another section where quality control are ensured before eventually being packed for shipment. We have seen a number of large machines and equipment which are there for various steps of glove making.

After that Thomas sir brought us to the section where checking, packing and labelling process

which are done. There we saw a lot of employees who are doing their work together.

The workers inspect gloves for any defects or imperfections, ensuring that they meet quality standards. If there are any visible defects like tears, holes, or missing fingers within a batch, there is no need for further testing. Visibly defective gloves are removed and discarded. Then they inflated the gloves with air using a suitable inflating device, ensuring they are fully expanded. After completing the checking process, non-defective gloves are sent for packaging.

After understanding all these, we raised our doubts and Thomas Sir clarified them all. Then we thanked the manager and other employees of the company who cooperated and facilitated our industrial visit and also gifted them a dairy as a token of love from our side.

We reached the college campus by 5: 00 PM.

### **AIM OF THE INDUSTRIAL VISIT: -**

- ❖ **To interact the students with actual industry personnels.**
- ❖ **To make us aware of the industrial procedures required to enter in any company.**
- ❖ **To experience the working environment in industry and visualize all the important departments in the industry.**
- ❖ **To prepare us for the selection of carrier path in different departments of industry.**

## **CONCLUSION**

We are thankful for all our faculties for organizing such an informative event for us. We got the knowledge on different types of industries and the experience of visiting them was wonderful. We gained firsthand information about the manufacturing process right from raw materials, machine handling, quality check, testing of final product etc.

This Industrial Visit helped us to bridge the gap between academics and industry.

### **Industrial Visit (I.V) Report-MASCO Tea Factory, Vagamon**

The I.V. programme B.Com Students of the Department was conducted on 16.12.2023 to MASCO Tea Factory, Vagamon and nearby places of tourist attraction. There were 52 students accompanied by 3 teachers for the industrial visit. The journey began with a silent prayer and attendance check. The bus was boarded by the students and staff and left campus at 7:00 a.m. headed to our first location - MASCO Tea Factory, Vagamon. On the way we stopped at a restaurant at Cherpunkal for our breakfast. Soon after, we started again to the tea factory.

As soon as we reached the factory, Mr. Balakrishnan who is the overhead supervisor of the factory, guided us through the various processes and machinery of the factory. MASCO Tea is an organic tea manufactured from the beautiful landscape of Vagamon, a small picturesque town in the mountains of Kerala in South India. The MALANAD SERVICE CO-OPERATIVE BANK LTD, which was established in 1970, , undertook a prestige project, a Tea Processing Unit- with an aim to save the poor member farmers to get an adequate price for the green tea leaves. In 1995, they started to produce tea leaves. But, there were several hurdles waiting for them and after facing severe setbacks, the bank authorities decided to set up a tea factory by itself. On 02.11.2000, the society started MASCO Tea. Balakrishnan sir showed us the various processes used to refine tea powder. It was divided based on its size and quality using a refining device. Prices were set according to the refinement and quality of tea. Regular inspections were conducted at the tea factory by various authorities to ensure safety and hazard-free manufacture of tea.

After the visit at MASCO Tea, we boarded the bus and soon started to our first location of tourist interest - Vagamon Meadows Lake. At the lake, we had the opportunity to do boating which was a great experience for everyone. After the visit at the Lake, we had our lunch at a restaurant in Vagamon.

After having our lunch, we head out to Vagamon Meadows, commonly known as Mottakunnu due to its structure. It was a beautiful sight to the eye. We had the opportunity to enjoy the landscape and relax. After the visit at the Meadows, we were off to our next location - Pine Forest, Vagamon. At this location, we were left free to explore and be adventurous. It was a great experience and there were many sights to see.

Around 6:00 p.m. we wrapped up the visit at the pine forest and made our way to our last location - Parunthumpara Hills. Windy climate and chill air was the speciality of this location. It had

a beautiful landscape and cold weather. We took our group photo at this location which was printed and distributed to all the students and staff that participated in the visit. At 7:00 p.m. we started our journey back to campus. On our way, we stopped at a restaurant at Mundakkayam for our dinner. After having dinner, we started back to college and reached the college by 10:00 p.m.

## INDUSTRIAL VISIT (28/10/2023)

Industrial visit was conducted by the Department of commerce, at MASCO Tea factory on 28/10/2023. 27 students and 2 faculty members visited the various places of Vagamon. The faculty of commerce Mr. Alen Varghese & Ms. Rintu Abraham accompanied the visiting the students . The prime focus of this trip is to know about the working of tea factory, and for that purpose visited MASCO TEA FACTORY. The students were enriched with the process of manufacturing the tea from the scratch, different types of leaves used for the process, the machine used in the process etc. On the whole it was knowledgeable for the students.

## Department of Malayalam

### Study Tour Report

The Department of Malayalam organized a four-day study tour for the final-year BA Malayalam students from 18th January 2024 to 21st January 2024. A total of 28 students participated in this enriching and memorable experience. The tour aimed to provide exposure to diverse cultural and natural landscapes, fostering learning beyond the classroom.

The group visited Munnar, Marayoor, Kanthalloor and Kodaikanal, each known for its scenic beauty and cultural significance. The students explored the lush tea gardens and Eravikulam National Park in Munnar, gaining insights into the region's biodiversity. Marayoor offered a glimpse into its rich heritage with sandalwood forests and ancient dolmens.

Kanthalloor, known for its picturesque orchards and serene environment, provided a peaceful retreat. The visit to Kodaikanal included the breathtaking Kodai Lake, Coaker's Walk, and Bryant Park, enriching the students' understanding of geography and local culture. Dr. Selvy Xavier and Dr. Sarath P Nath served as teacher representatives, ensuring a well-organized and safe journey. The students engaged in group discussions, cultural activities, and reflective sessions during the tour.

The study tour not only deepened their appreciation for Malayalam literature's connection with nature and culture but also fostered teamwork and bonding among students. The participants returned with cherished memories, a broader perspective, and a renewed enthusiasm for their studies.

## **B.A POLITICAL SCIENCE**

### **FIELD VISIT**

#### **Objective**

- To explore environmental and human rights issues by observing natural landscapes, sustainable tourism practices, historical sites, and socio-economic interactions in Goa.
- The visit aimed to create awareness about environmental protection, the intersection of development and human rights, and the role of civic responsibility in preserving cultural and ecological heritage.

#### **Outcome**

- **Environmental Awareness:** Students gained insights into eco-tourism and sustainable practices in coastal regions.
- **Human Rights Perspective:** Learned about the livelihood challenges of local communities dependent on tourism and the preservation of cultural heritage.
- **Policy Understanding:** Understood how environmental policies can support both conservation and economic growth.
- **Team Building:** Developed collaborative skills and cultural appreciation through group activities.

The field visit for the **Environmental Politics and Human Rights** paper of the B.A. Politics program was conducted from February 6 to 9, 2024. A total of 22 students, accompanied by Dr. Sheeja Kuriakose and Lt. Dr. Shibu M. George, participated in the excursion organized by Dream Goa Travel Company. The primary objective was to observe and analyze environmental conservation efforts, sustainable tourism practices, and socio-cultural dynamics in Goa, aligning with the syllabus focus on environmental policies and human rights. The journey began on February 6, departing from Kottayam Railway Station and arriving at Madgaon Railway Station on February 7. After checking into the hotel, the first day's itinerary covered North Goa, with visits to Aguada Fort, Sinquerim Fort, and Baga Beach, where students experienced dolphin-watching, emphasizing marine biodiversity. The day also included visits to Anjuna Beach, Vagator Beach, and Chapora Fort, showcasing the region's ecological and historical significance. On the second day, students explored Calangute Market, attended a beachside sunset, and experienced local nightlife, reflecting the intersection of tourism and economic rights. The third and final day focused on South Goa, with visits to Shree

Mangueshi Temple, Old Goa Church, Dona Paula Beach, and Miramar Beach, highlighting cultural heritage and environmental preservation. A stop at Panjim Market offered insights into the livelihoods of local communities. The journey ended with a departure from Thivim Railway Station on February 8, and the group returned to Kottayam on February 9. The visit successfully bridged classroom theories with real-world applications, fostering environmental awareness, cultural appreciation, and an understanding of sustainable development.

## Field Report

18 students from the Department of Botany at Baselius College, Kottayam, together with two Assistant Professors, Drs. Sajish PR and Geethalakshmi K., went on a field trip to Chennai, Mahabalipuram, on February 9, 2024. We arrived in Chennai at 8 a.m. on February 10. We chose to travel by train, leaving Kottayam and arriving in Chennai. The train was also used for the return trip. The purpose of the trip was to visit some of the most well-known tourist spots while also investigating Chennai's and the surrounding areas' plant diversity. We visited Covalam Beach in Chennai in February and observed *Ipomea pes-caprae*, a member of the Convolvulaceae, *Canavalia maritima*, *Piliostigma racemosum* of the Fabaceae, and *Getonia floribunda* of the Combretaceae. We traveled to Mahabalipuram on February 11th and gathered this area to our department Museum and also for herbarium preparation. On 12th February we visited a flower show held at Botanical Garden at Chennai.

Our trip was successful and we believed that our objective was achieved. We learned something new which beneficial for us. We have also realized the fact that show tough and difficult is field exploration during the dry period

**STUDY TOUR 2024**  
**REPORT**

**UDUPI -DANDELI**  
**01/02/2024 - 04/02/2024**

Department of Mathematics, Baselius College Kottayam had organized a study tour for the final year UG students .A four-day trip to Dandeli via Udipi was a raw ecstasy for the students. Tour coordinators Ms. K. Navya Krishnan and Ms.Hridhya Shaji made a travel plan amidst the short span of time with the support of Royal Holidays travel package team. The travel plan was for 4 days from February 1st to February 4th and train was opted for travelling.16 students of D3 mathematics was accompanied by the Head of the Department Mrs. Preetha Mathews and Assistant Professor Ms.Akhila M.M.

Journey commenced on 1<sup>st</sup> February, evening from Kottayam railway station. The train journey was a pandora box that too a hilarious one. Sweltering Mangalore morning welcomed the team next day and there begun the two-day adventures of mathematicaphiles.

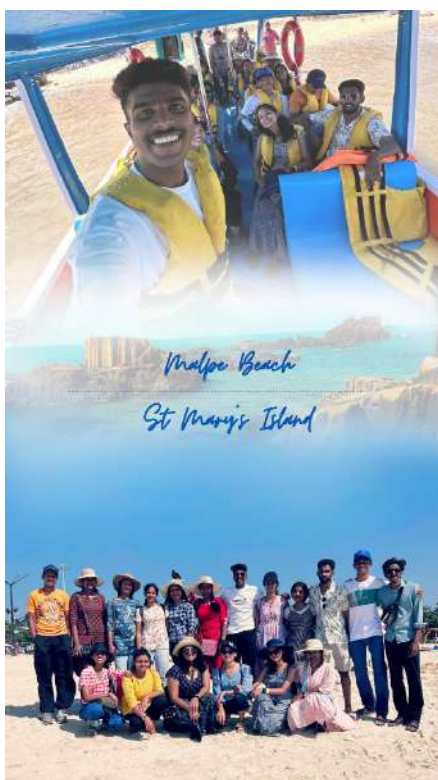

'A tapestry woven with golden sand ,turquoise waters and gentle breezes' ,St. Marys Island and Malpe beach embezzled the amigos with its treasure trove of natural beauty. Entire team explored St. Marys Island and the sculptor's masterpiece enraptured everyone. The fun filled boat ride and rock climbing was a cherry on the top. On the same day night, the team arrived at the most awaited destination 'Dandeli'.

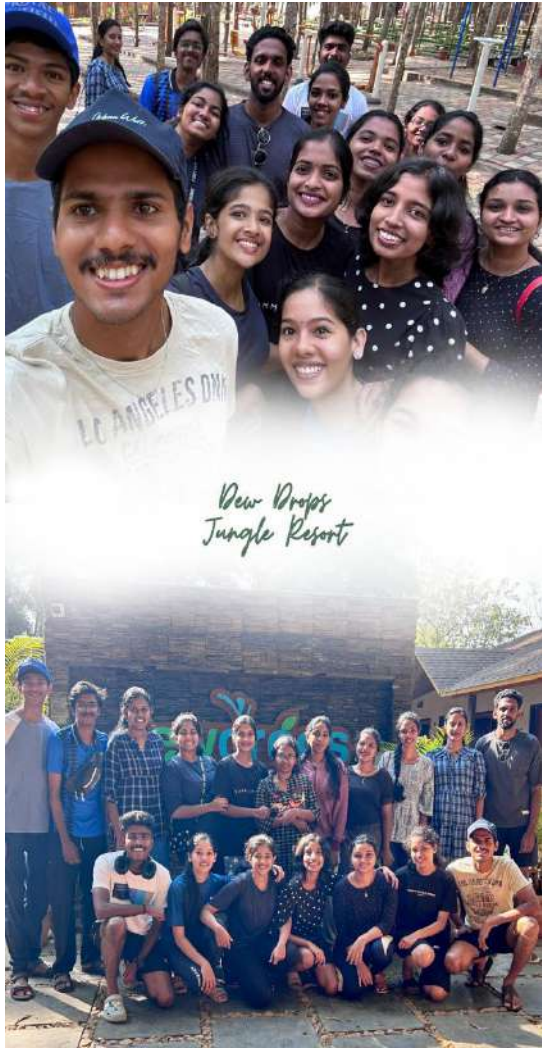

Dew drops jungle resort was nothing but surreal. The solace of greenery and humming of forest was a checkmate to the adventure enthusiasts. The signature mouthwatering delicacies along with an array of thrilling activities was prodigious and enjoyed well. Water sports comprises of rafting boats, kayaking and water ball in Supa Dam navigated into thrilling twists and turns. The adrenaline surge from Dandeli's water is a moment for every thrill-seeker and nature lover.

Deep soak in the chilling weather followed by a dazzling rain dance unleashed the vibrant energy of D3 mathematics. Dynamic moves matching the infectious rhythm radiated pure joy and fulfillment .It was a true celebration of friendship and a sight to watch. The sheer pleasure of togetherness brought laughs and everyone had a whale of a time.

A refreshing cozy source of peace and contemplation, camp fire recaptured the moments and binded all in the warmth of nourishing and rediscovering friendships. On 4<sup>th</sup> February, the team reached Kottayam ,again after a whimsical train travel.

The entire trip was ride filled with adventure, discovery and connection. It was a wake-up call to break the comfort zone and to immerse in new moments . It was not just four days but pure bliss and a time to cherish forever.

## DEPARTMENT OF ZOOLOGY

### Study Tour Report

The study tour for final year B.Sc. Zoology students were scheduled from 06-10 February, 2024. The trip was for 4 days and 4 nights. The destinations were Ernakulam, Mysore and Belur. The team of 33 students and two teachers visited Central Marine Fisheries Research Institute (CMFRI), Kochi to enhance knowledge in the field of Marine Sciences and to know about its scope in the field of research. A well-set museum and a marine aquarium were also the attractions of the institute. The team then explored Mysore on the second and third days of the trip. The major places visited were the Zoo, Marine Park, Palace, Brindavan Garden, Shukavana, Snow city, Chamundi hills etc. On the fourth day, the team visited Belur, where enjoyed with some water activities and later visited Belur temple. The trip reached Kottayam next day morning after overnight journey.

## INDUSTRIAL VISIT 2022-2024 BATCH

As part of the Syllabus of M.Sc. Data Analytics, a one day **Industrial Visit** is given to **M2 Data Analytics** students (2022-24 Batch) on **22<sup>nd</sup> July 2023** at **SMEClabs Kochi**. All **14 students** along with **3 faculty members** visited both **SMEClabs Internship training center** at **Kaloor** and the **SMEC Automation Pvt Ltd** at **Infopark Campus Kochi** (Athulya Building, Ground floor, Infopark).

### About SMEC Automation Pvt Ltd:

SMEC Technologies is a global End-to-End IT/ITES services and solutions provider. It has over 2 decades of service history. It serves various organizations of different verticals such as Oil and Gas, Marine, Defence, and IT Industries. Currently, the company has its base for major operations in Marine and industrial automation including AI projects, predominantly in India, Sri Lanka, UAE, Singapore.

### About SMEClabs Internship training Center:

SMEClabs is the R&D and training wing of SMEC Automation at Kaloor. It offers various courses in Robotics, AI, Networking, Java, Android, Data Science, Big Data, MEP, Oil and Gas Piping, QA/QC & NDT, etc.

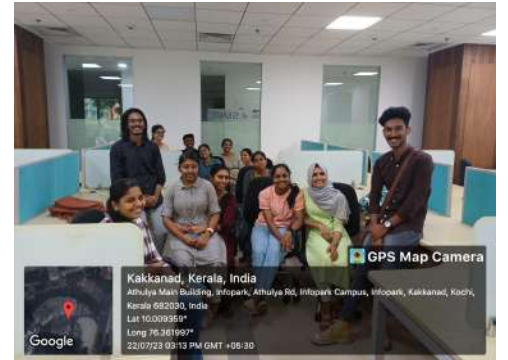

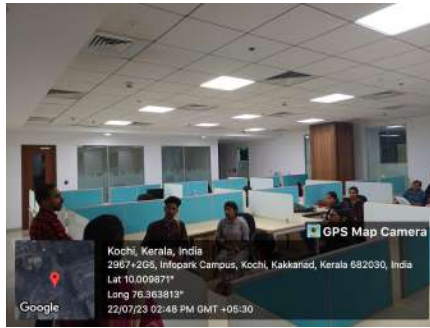

At the **SMEClabs Internship training center** at **Kaloor**, students got the opportunity to see and explore all the areas and courses offered there. The **SMEClabs Senior Manager, Mr. Viji V Nair** explained to them about all the sectors, labs and courses in the training center including Data science, Artificial Intelligence, Mechanical Engineering, Marine Engineering, Robotics, IOT etc.. Also a 2 hour interactive session on “**An Introduction to Data Science and Data Science Projects**” is also given to students by **Mr. Baiju Sivaraman (HoD, AI Department SMEClabs)** and **Mr. M Robin Ray (Senior Data Scientist SMEClabs)** which helped students to gain knowledge about Data science domain and also it helped them to choose their topics for Academic Project for their Data analytics Programme.

At Infopark Phase I Campus Kochi, Students got the opportunity to explore various MNCs in the campus including TCS, EY, Experion, ThinkPalm, Hashroot, Lulu CyberTower etc. At **SMEC Automation Pvt Ltd at Infopark Phase I Campus Kochi** (Athulya Building, Ground floor, Infopark) the professionals explained about their day to day working and operations and gave students an overview on the Industry activities and SMEC overview. Visiting Infopark Campus was a great experience for students to explore the IT park.
