The *Niravu* project launched by the college is a commendable initiative that addresses both food wastage and hunger in the community. By encouraging students from all departments to bring their leftover "pothichoru" (noon meals) from home and contribute to the *Niravu* counter, the college not only helps provide food to the poor and homeless but also raises awareness about the importance of food conservation.

The project operates daily, with food packets being collected in a designated box placed in front of the college. The needy individuals in the area are able to collect these meals, ensuring that no food goes to waste and that it reaches those who truly need it. With an average of 10-15 meal

packets being collected each day, the program has been running successfully, demonstrating the generosity and compassion of the students.

The initiative also teaches students a valuable lesson in empathy and resourcefulness, reminding them of the significance of sharing and the impact small gestures can have on others. It serves as a model for how educational institutions can contribute to social welfare while fostering a sense of community responsibility among their students.

The Department of Zoology conducted a socio-economic survey in association with Unnath Bharath Abhiyan (UBA) at Monippally Panchayath on 6th January, 2024. UBA is a flagship programme of the ministry of Human Resources, envisaging rural development. The survey was held to develop a Unique Grama Panchayath Development Plan (GPDP) for the area by incorporating stakeholders from various fields of the society including people's representatives, students and policy makers. 31 students from the Department actively participated in the survey under the leadership of Ms. Sany Mary Benjamin (UBA Convenor) and Dr. Anit M. Thomas. The student co-ordinators were Megha S. Kollettu and Faisal Ali of D3 Zoology. This survey helped the students to know about socio-economic status of the community in the selected locality and also it provides an opportunity to interact with people belonging to various socio-economic levels. The survey was very successful.

43. Quimica by Dept. of Chemistry

The National Science Day celebration on February 28, 2024, organized by the Department of Chemistry & Centre for Research at Baselius College, was a remarkable event that emphasized the relevance of chemistry in everyday life. The event, titled "*Química*," was held at St. Thomas School Puthanangadi, Kottayam, and saw the enthusiastic participation of 30 students eager to explore the wonders of chemistry.

Solliya Joseph, a student from M2 Chemistry, delivered an insightful lecture, explaining the practical applications of chemistry in daily life. Her examples—from food to clothing to modern technology—captured the students' attention and deepened their understanding of how chemistry influences the world around them. The lecture not only educated but also inspired curiosity about the subject.

The event was further enriched by live demonstrations from Aleena Thankappan, Sandra, Jishnu, and Sahal, also from M2 and M1 Chemistry. Their experiments brought the theoretical aspects of chemistry to life, offering hands-on learning experiences for the students.

These demonstrations sparked excitement and provided a tangible connection to the science being taught.

In addition to the engaging presentations, the department contributed to the school's library by gifting books worth Rs. 1100/- on science. This fund was raised through the sale of homecare products created by the department, underscoring the importance of practical applications of science in promoting education.

The program, which ran from 11:00 AM to 12:45 PM, was a resounding success, leaving a lasting impact on the students and nurturing a greater appreciation for chemistry and its role in shaping the world. The event not only celebrated National Science Day but also fostered a sense of curiosity, learning, and community involvement among the participants.

44. Numerical Ability Course by Dept. of Mathematics

Learning and sharing knowledge is the key to reduce the darkness. Disseminating knowledge is the human duty, sharing it will make us wise. Also it helped to enhance confidence and thereby we can overcome the fear of studying for exams. In light of these thoughts, the Department of Mathematics of Baselius College, Kottayam has been conducting an extension programme for the last 7 years.

As an extension activity as well as an institutional social responsibility, remedial coaching classes for slow learners of Mathematics at school level are being taken by few of UG students, both first year and second year. The beneficiaries are from Govt. Model High School, Kottayam. This year also students visited Model school children and taught them maths concepts from 6th November 2023 to 11th January 2024 at 8:45 am. Students taught them for an hour. The main focusing areas were basic mathematical concepts, fractions, decimals, algebra, angles, ratios and so on.

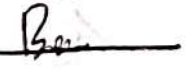

The total 15 hours teaching - learning extension programme was very fruitful. The tutors were happy with the response of the children. Second year students, Mr. Muhammed Shajahan, Ms. Anjali Krishna C B, Mr. Ashwin George Joseph, Ms. Nowreen Fathima Jaleel, Ms. Archana R and Ms. Ashika S coordinated the programme. Along with them, first year students, Ms. Anagha S, Ms. Savithri Devi VV, Ms. Sruthy S, Mr. Devanand B, Ms. Devika R, Ms. Nissy Sarah prince, Ms. Fathima Minha P, Mr. Anand KS and Ms. Anakha P Rajesh were also a part of this programme.
